TCI Makes Available COVID-19 Patient Survey for Clinics During Pandemic

Southern Pines, N.C. — Mar. 23, 2020 — TCI Software has developed a Rounds® software survey that customers can use to measure the impact, early detection and follow-up to track COVID-19 care information among local healthcare clinic patients. The service is free for current Rounds subscribers.

Follow this link to a sample survey:

<https://tcidemo.azurewebsites.net/Survey/5d7408d7-2bb6-476d-aa33-4ce83384b8f6/>

Rounds software subscribers can use this sample survey and/or create their own by following these steps:

1. Log in to their Rounds dashboard
2. Select Create Campaign
3. Complete the brief set up form
4. Select Create survey
5. Add and Save questions

In addition to in-clinic patient engagement, the above link can be placed in an email to the patient database, or in a text message.

For assistance in creating a survey, contact your TCI Account Manager at 866.903.0799 or by email, info@tcisoftware.com.

Non-subscribers can enroll in Rounds by calling 866.903.0799 ext. 1.
